WANT SURPLUS ARMY FOOD IN THIS CITY

Mass Meeting of Citizens Saturday Night in Opera House

REPORT WILL BE MADE

Labor Organization and Others Desire to Reduce H. C. L., By Getting Car Load of Army Food.

Citizens of Alexandria are anxious to secure a car load of the army surplus food to be sold at cost to all residents of Alexandria who desire same.

Steps to secure such are to be taken at a mass meeting which will be held at 8 o'clock Saturday night in the opera house to which all citizens, both men and women, are invited to attend. First steps toward securing from the War Department some of the surplus food were taken by Boilermakers Union No. 369 at a meeting held recently.

This organization appointed a committee to take up the matter with the War Department. This committee subsequently made a report on the proposition to the Alexandria Trades Counhave the food brought to this city. Details for completing the arrangements have been left in the hands of a committee composed of M. B. Thompson, M. T. Burns, G. L. Justice, J. W. Collins

It is stated by the committee in charge that they already have secured the co-operation of a number of city officials in the matter.

Any responsible person who may be designated may have the food sent in their name. The food which it is proposed to distribute consists of canned meats and vegetables.

The committee in charge of the arrangements for securing the food asks that every man and woman interested attend the mass meeting Saturday night.

Only a limited supply of the food is to be sold to each person and none will be offered at wholesale.

GIRL IS SHOT

Rifle Father Loaded for Groundhogs Kills Daughter

Greensburg, Pa., July 24.—While playing with a loaded rifle which her father, Jesse McDevitt, a prominent farmer of Bell township, had loaded for groundhogs and then left in the kitchen, Rosella McDevitt, 14 years old, was instantly killed Tuesday evening. Deputy Coroner Horner censured the father for carelessness in leaving a loaded gun in so busy a spot as the kitchen.

McDevitt had set the rifle down in the kitchen and a short time later the father, mother and son left the room. Seeing the gun, Rosella asked a younger sister, Annette, aged 10, to put the gun away. The latter handed the loaded rifle across the table and as Rosella reached for the weapon it was discharged, the ball entering the elder girl's left side, penetrating the heart. Exclaiming: "Mother, I am shot," the little girl fell lifeless.

HUGE AERIAL WARSHIP

England Plans Flying Monster Bigger by Far Than R-34.

London, July 24.—Within a few months the Royal Air Force will possess an airship half as large again as the R-33 and R-34. Such a ship is now under construction by Armstrong, Whitworth and Company at their Elswick works, where the R-33 was built, according to the Daily Mirror.

The new ship will not be an aerial liner, but another and greater warship. Therefore it will not be provided with passenger accommodations. The crew will have comfortable quarters and there will probably be space for an officers' mess.

The regular meeting of Randolph Chapter No. 3, K. R. C., and Lafayette Council No. 2, K. K., will be held in the Masonic Temple Monday, July 25th, 1919, at 7:30 p. m. Business of importance.

HUNS PLAN TO RAISE MONEY

Huge Indemnity to be Met by Special Taxation Program

Berlin, July 24.—Germany's financial program calling for the raising of 25,000,000,000 marks annually, agreed upon by Mathias Erzberger, minister of finance, and a group of experts, was published today by the North German Gazette. The conference was said to be in complete agreement on the financial reforms.

Eight billion marks will be obtained by war taxes, according to the Gazette's summary of the proposed plan. The remaining 17,000,000,000 must be raised from new sources. The first of these will be a heavy increase in the tax on business turnovers. The second "the imperial sacrifice to needs." The third new set of taxes will be on the necessaries of life.

An important part of the program will be the imperial income tax which will be a tax on profits from invested capital. These capital profits will be taxed from 25 to 30 per cent., according to a newly evolved system that is intended to eliminate inequalities and protect small capitalists from being overburdened.

The new imperial income taxes are expected to be in operation by April 1, 1920. A large army of officials will be needed to handle the taxation system.

CHILD GRASPED LIVE WIRE

It Was Dangling From Street Light And She Was Badly Burned

Philadelphia, July 24.—Catherine Cassidy, 8 years old, No. 3327 North Nineteenth street, was severely burned and narrowly escaped death yesterday when she touched a live electric wire. She was taken to her home, and is in a serious condition.

She was at the corner of Nineteenth and Westmoreland streets, where an electric wire had been torn loos from the arc light above. The wire was dangling, and as she passed she touched it. Her left hand became fast, and when she attempted to break her hold with her right hand it also became fixed to the wire.

Charles Graham, of Trenton, and Miss Thuren Knierinam, who were with the child, tried to pull her away, but were severely shocked. They summoned help, and the child was taken to her home. Her family physician says it is remarkable that she was not killed.

Johnstown, Pa., July 24.—Following a quarrel with his wife Tuesday night, Stanley Muscabage, aged 38 years, employed by Springfield Coal Company, of Nant-Y-Glo, left home, obtained two sticks of dynamite, adjusted the caps, lit the fuse and sat on the explosives. Following the explosion, which blew Muscabage to bits, an undertaker and assitants with buckets picked up pieces of the remains, many being found 100 feet away. Children playing in the neighborhood yesterday morning found bits of Muscabage's flesh.

Muscabage before ending his life declared he was tired of quarreling, the high cost of living and married life.

Sir Eric Geddes the government's representative, explained the move was for the protection of the navy men engaged in keeping the mine pumps in operation Sir Eric laid emphasis on the statement that the troops would be kept out of sight as much as possible and that the polide would be responsible for the protection of citizens.

CHARGES ASSAULT TO GET NEW DRESS

Greensburg, Pa., July 24. Desire to get rid of her old mountain dress for a new and prettier one "just like the city girls wear," caused thirteen-year-old Emma Enas, who lives on Rural Ridge, to invent a story of a brutal attack having been made upon her while she was returning home Saturday evening.

The girl admitted this, after an armed posse, headed by the girl's father and her brothers, had searched the hillsides for the gang which she said attacked her. State police also searched.

CAPITAL CITY IS AGAIN TRANQUIL

Normal Conditions Prevailed in Streets Last Night

SHOT AT BY A NEGRO

Fiend Fires Two Shots From Pistol at Man and Woman at Sixteenth and A Streets Southeast.

The atmosphere of rancor and race bitterness that had recently shed its mantle of bloodshed and turbulence over the District of Columbia was lifted last night, again it was safe for the law abiding citizen to stroll in the downtown section of the city.

The police and military authorities were prepared to quell any further outbreak. Besides the hundreds of soldiers, fully armed, who watched the potential sources of trouble, 1,000 more were held in reserve, ready for action at a moment's notice, but their services were not needed.

The reaction has apparently set in and the police department as well as the military authorities have had hundreds of law abiding citizens tender their good will to abate the angry feelings that crystallized into turmoil.

On her way home from the theater in company with her brother, Edward Toomey, Mrs. Emmett Brennan, living at 1617 A street southeast, was shot at by a negro at Sixteenth and A streets southeast.

Mrs. Brennan immediately upon her arrival home, 'phoned headquarters and a detail of police was rushed to the scene of the shooting.

According to her statement a gang of fifty negro men and women were standing on the corner of Sixteenth and A streets southeast and as she passed, a man stepped from the group and fired two shots at her.

No arrests have been made. Neither Mrs. Brennan or her brother could give a description of the man who did the shooting.

SCORES DRY CONGRESSMEN

Baltimore, July 24.— Organized labor took a shot at the Maryland Congressmen who voted for the drastic "dry" bill in Congress Tuesday at a meeting of the Baltimore Federation of Labor last night. Resolutions were passed requiring the secretary to write to Congressman Benson, Zihlman, and Andrews that the federation had taken notice of the vote on the dry bill "and will remember them when it comes time for their re-election." The matter was also referred to the political league of the federation, with instructions to make it an issue at the next meeting of the State Labor Political League.

Congressman Benson came in for most of the criticism of the delegates since he had been consistently "wet" right up to the final vote on the measure.

A motion to send a letter of thanks to Congressmen Linthicum. Coady, and Mudd for their opposition to the "dry" bill was carried unanimously.

MOTHER'S TERRIBLE DEED

College Professor's Wife Believed Deranged as Result of Influenza Last Fall

Grove City, Pa., July 24.—Mrs. R. R. Welch, aged 31, and her three children, Richard, 5 years old; William, 3, and Timothy, 18 months, are dying in the Grove City Hospital as the result of poison administered, it is said, by Mrs. Welch yesterday afternoon while temporarily demented as the result of an attack of influenza last fall. Mrs. Welch is the wife of the head of the Department of Animal Husbandry of Pennsylvania State College, who was on his way from State College to his home when the poisoning occurred.

Neighbors first learned of the trouble in the Welch home when they heard the children screaming on the second floor of the home and saw Mrs. Welch staggering about the porch of her home. Workmen who were passing the house asked Mrs. Welch what was the matter and it is said she told them that after giving the children several tablets each, telling the two older ones that she was giving them medicine, she locked them in a room and swallowed several of the tablets herself.

Mrs. Welch is said to have been in poor health and told friends she was losing weight every day. A physician who examined her at the hospital said he thought her mind was affected, although her actions about her home were normal and she was well enough so that her husband was able to attend to his duties at State College.

WATER TRAPS CARRIER

Two Storm Swollen Streams Hold Him a Prisoner for Hours

Luray, Va., July 24.—The climax of northern Virginia's five days of almost incessant rain came late last evening in what was believed to be a cloud burst in the foot hills of the Massanuten mountains, five miles northwest of Luray, Randolph Barbee, a rural mail carrier from Luray, was caught between two streams that come down from the mountains and was held a captive for hours with his horse, wagon and mail between the two walls of water.

To have attempted to cross either of the streams would have meant carrying the mail map, horse, wagon and mail to the Shenandoah river, a short distance away, so for hours the carrier was compelled to sit in his wagon and await the falling of the streams.

Subscribers to the Gazette are requested to pay the bills to the collector when he calls. Owing to the reduced price, of twenty-five cents per month, at which the paper is sold, it is far from profitable and takes entirely too much time to be forced to make more than one call for such bills. Hereafter subscribers unable to pay when the collector calls will have papers discontinued without further notice.

SUNNY SKIES TODAY

End of Eight-Day Deluge and Sunny Skies to Continue

"Fair and warmer" is the weather Man's prediction for tomorrow.

After eight days and nights of almost continuous rainfall the skies cleared yesterday and, except for an occasional shower, remained so the greater part of the day.

At the Weather Bureau last night the forecaster declared the record-breaking rainy spell over, and predicted sunny skies for the remainder of the week, with gentle westerly and southwesterly winds.

The let-up will mean that the residents of Alexandria may resume their midsummer activities, necessarily discontinued during the rain.

IN MEMORIAM

In memory of THOMAS W. COOK, who was drowned in France, February 24, 1919.

Dear little flag with a star of gold,
Stands for a son that went afar,
And though his grave we may not see,
Our boy will never forgotten be.
He left his home in perfect health,
He looked so young and brave,
We little thought how soon it was
That he would be laid in a soldier's grave.

THE HOUSING PROBLEM

Alexandria, like every city on the Atlantic seaboard, is confronted by the housing problem. Two years ago there were many vacant houses in this city, but at present every structure is in a condition to be occupied by human beings has been taken, while new houses have been erected, especially in East Rosemont and other sections recently annexed to Alexandria. Numbers of persons employed in this city reside at New Alexandria, where houses are also scarce, so much so that some people in that suburb are spending the summer in tents. The winter is coming, and those who are eking out an existence after the fashion of the Bedouins will be forced to procure other quarters eventually. But "Where to go?" is the anxious query.

Alexandria has during many years invited enterprises to locate here. Our invitations have been accepted, and now that the city teems with thousands of strangers with the assurance that within a few months, when the torpedo factory shall have begun operations, nine hundred artisans will be empolyed at once, housing accommodations will be demanded, and if we desire to keep the new comers in our midst we must furnish accommodations.

Alexandria abounds in vacant lots. They can be seen in every section of the city proper, that is Alexandria before annexation, but now that large areas of Alexandria and Fairfax counties have been incorporated, many acres of ground into which spades have never entered are inviting use.

We want houses at once. The demand will be more urgent by this time next year. But few new buildings are in course of construction in the city at present.

All in positions to do so should take heed to these suggestions. We do not suppose any person will attempt to build a row of dwellings, but should each individual resolve to build one house, at least, the aggregate would go far toward enabling Alexandria to this important chapter in its history.

THE OLD AND NEW NEGRO

In the last few months crimes of violence have reached such proportions in Washington that one of the papers of that city recently declared it to be the most lawless city in the Union. They are mainly committed by negroes, and the police force, trained as it has been, has been unable to cope with them and the aid of the military was sought.

The New York Times in commenting upon present conditions says "the assumption must necessarily be that in the new Washington, which has replaced the old, the hurly-burly, crammed, jammed town that has succeeded the placid and easy-going old city, the town where hotels are bursting and lodging houses turning people away, there has been an influx of negroes as well as of white people. It certainly is not the old, law abiding negro population, the friends of the white man, that has been committing these crimes against women, these daylight holdups, and all the other outrages that have incited white men to a general war against negroes. It must be the new negro population brought in by the war.

"That the white man, exasperated by the failure of the police to cope with the situation should have undertaken to end it by a general terrorization of negroes is to be condemned and deplored. That the negroes, most of them undoubtedly innocent, should have retaliated upon the whites is not less deplorable. These negroes who are riding around in motor cars shooting up any group of white men, women, and children that they may see chatting together on a street corner, they are not old Washingtonians. The fatal injuries reported in the newspapers this week were mainly inflicted by negro women. What kind of women? Not the kind that old Washingtonians knew.

"The thing seems to be a regrettable by-product of the war. The fault is not with the police of Washington, brave as the bravest, honest men who do their duty. It lies in the fact that all their training has been that of constables doing duty in a peaceful town. For that reason they failed just as lamentably to protect the women suffrage paraders from rioters a few years ago; and so they always will fail to cope with a dangerous situation unless their training is based on metropolitan models."

THE MILLS OF THE GODS

There never was a more insolent and inexcusable State paper than the ultimatum which Austria-Hungary delivered to Servia just five years ago yesterday, demanding her submission to most arrogant demands within 4 hours, with war threatened as a penalty of refusal. The terms were made onerous and impossible, with the deliberate purpose of provoking hostilities, for Servia could not concede them all without sacrificing her sovereignty as an independent nation. As it was, she yielded on every point but one, and on that her answer was so conciliatory that an understanding could easily have been reached if Austria had really desired one. Of course, she did not, and with the Kaiser's backing she intentionally brought on the great world war.

The Philadelphia Record in referring to the above facts says "it is interesting to compare the haughty Hapsburg Government of that time with the third-rate Power which within the last few days has received from the Paris conference the terms on which she can have permanent peace. They are severe, but they are just; for Austria deliberately sinned against the light. Her territory is so circumscribed that she will haev a population of only 7,000,000 or 8,000,000, as against some 50,000,00 five years ago. Her army, once one of the proudest in Europe, is to be reduced to a trifle of 30,000 men. Her navy disappears, and she must make all the reparation in her power to the countries she treated with such harshness. All prestige is gone, and the Austria of the future will be but a petty State without authority or influence. If the debonair Count Berchtold could have foreseen the consequences of that ultimatum which he dispatched so light-heartedly to Servia just five years ago he would have been appalled; for in modern times no such fearful retribution has ever fallen upon a first cass Power. He long ago vanished from the scene. The consequences of his Hunnish insolence will endure for untold centuries to come."

FORD'S ORDEAL

Acknowledgments made upon the stand by HenryFord during the trial of the suit he is urging against the Chicago Tribune have caused considerable merriment to newspaper readers. Much, however, could be said in defense of Mr. Ford. A contemporary in this connection says:

"Suppose Mr. Ford, turned questioner, were to ask his interlocutor about ohms and ampers, ignition sparks and injecters, vacuums and lubricants, tensile and shearing strains, the design differences of combustion engines for road work, farm tractors and lumber hauling. If the lawyer runs his own automobile he might manage for a while, but he would soon begin to flounder in the depths of an innocent ignorance. The fact is, of course, that Mr. Ford has a vast fund of useful knowledge, firsthand, accurate and on tap. All men are ignorant somewhere; even the learned Dr. Johnson misdefined a horse's 'pastern in his dictionary and gave ignorance, madam; pure ignorance' as the sufficient excuse. Most of Mr. Ford's critics could easily be tangled up themselves in an examination directed by skilled counsel along lines remote from their daily experience."

FLYING HEARSES MAY COME

Thre has been talk of flying hearses and a short time ago a clever London press agent managed to wedge into the news the alleged facts that a theatrical troupe was to do the European "kerosene" circuit via aeroplane; but here's the very latest.

"The minister's one horse shay has given way to the tidy little areal runabout. The Rev. A. W. W. Little, vicar of Blackpool, has discovered he cannot get around his parish fast enough by auto, so he has chartered an aeroplane to take him from Blackpool to Liverpool in order to be on time for one of his preaching engagements. The first veritable 'sky pilot' in history declared after the trip that he was wedded to the idea of speeding his ecclesiastical labors by aeroplane and was going in for this sort of thing regularly."

"Smoke Virginia-Carolina Straight"
Virginia-Carolina, daddy of tobaccos, the world's favorite
480 million pounds of Virginia-Carolina tobacco were grown last year! And *five* times more of it was smoked in cigarettes than all the foreign-grown tobaccos combined.
Showing that good old Virginia-Carolina—cultivated and improved for three centuries—is by all odds the world's favorite cigarette tobacco today.
And never does Virginia-Carolina taste so good as when smoked straight, unmixed with other tobaccos.
Prove it! Smoke Virginia-Carolina *straight* in a Piedmont.

DID NOT RECEIVE JUSTICE

John B. Densmore's Statement of Investigation of Mooney Case Submitted to the House

Washington, July 24.—Thomas J. Mooney did not receive full justice in his trial at San Francisco for alleged connection with the preparedness day bomb explosion, according to a report of John B. Densmore, former special agent of the Department of Justice, who investigated the case for the Government.

The report dated November 1, 1918, was submitted to the House today in response to a resolution.

"The plain truth is," the report said, "that there is nothing about the case to produce a feeling of confidence that the dignity and majesty of the law have been upheld.

"There is nowhere anything resembling consistency, the effort being a patchwork of incongruous makeshift and often of desperate expediency."

The resolution called for information as to activities of the Department of Labor in the case, and Densmore's report was forwarded by Secretary Wilson, accompanying his own statement.

SIXTY AUTOS STOLEN

Cars to Valuation of $48,000 Not Recovered, According to Police Statement.

Richmond, July 24.—Sixty automobiles have been stolen, and not recovered, in Richmond since January 1 was the statement given out yesterday by police headquarters. A conservative estimate of the valuation of the stolen automobiles, made by the police department, is $48,000, or an average valuation of $800.

Cars stolen from Richmond in the past six months range in value from $2,800 to $500.

WILSON MAKES DENIAL

Did Not Formulate Any Pact Giving Shantung to Japan

President Wilson, yesterday made his first public statement relative to the surrender of Shantung when he categorically denied published reports that he had originated or formulated the settlement whereby Japan obtained these valuable concessions at the expense of China. The following statement was given out at the White House:

"The President authorizes the announcement that the statement carried in several of the papers of this morning that he originated or formulated the provisions with regard to Shantung in the treaty of peace with Germany is altogether false.

"He exerted all the influence he was at liberty to exercise in the circumstances to obtain a modification of them, and believes that the ultimate action of Japan with regard to Shantung will put the whole matter in a true light."

AUTO VICTIMS LIE IN RAIN

Hazelton, Pa., July 24.—Hayden Weyenmeyer and David Herring, of this city, were badly injured Monday night when their automobile struck a heap of rocks on the road at Wesson and upset. Herring sustained two fractured ribs and Weyenmeyer suffered dislocation of the spine. The accident occurred at a lonely spot and the victims were unable to summon help, spending the night in the rain, near their overturned car. A farmer found them in the morning and brought them home.

FAMOUS COMEDIAN RIDES ON AUTOGRAPHED TIRES

The happy originality of Fred Stone, the famous comedian, is carried even beyond his work on the stage. Some time ago, during a visit at the plant of the Pennsylvania Rubber Company, at Jeannette, makers of the famous Vacuum Cup Tires, he conceived the idea of having a set of these tires made bearing his autograph worked in rubber on the sides. His idea was so innorative, that General Manager, Seneca G. Lewis, immediately set his experts to work on it, with the result that such tires were successfully evolved. On the Vacuum Cup Cord Tires which he recently purchased, the jet black tread and sidewall make the inimitable signature of the comedian, in bright red rubber, stand out in striking relief.

The tires, while designed primarily as a personal touch, prove even more. The name cannot be destroyed without mutilating the tire to a considerable extent, and thus proves an effective safeguard against theft. Mr. Stone has been a user of Vacuum Cup Tires for a number of years, and so enthusiastic has been his advocacy of their goodness and wearing qualities, that many prominent personages of his profession have, upon his recommendation, given them a trial, to their unvarying satisfaction.

PROFESSOR WARNS SWISS

Prof. Nippold Holds Hollweg Guiltiest Criminal and Wants Guilty Kept Out

Geneva, July 24.—Prof. Nippold, a prominent authority on international law, holds that the former German Imperial Chancellor Dr. von Bethmann Hollweg is the guiltiest of all war criminals, "more than the Kaiser and the German generals." He warns the Swiss government not to allow Hollweg and other Germans responsible for the war to enter the country.

Switzerland now harbors six Germans wanted by the allies, among them Crown Prince Rupprecht, of Bavaria, Grand Admiral von Tirpitz, Count von Berchtold and Herr Bernstein.

Many Austrian, Bulgarian and Turkish former ministers also are in Switzerland, most of them under false names to avoid detection.

GEORGE H. PRIMROSE DEAD

San Diego, Calif., July 24.—George H. Primrose, famous minstrel, died here yesterday, following a severe illness that began one month ago. He was born in London, Ontario, 66 years ago. A widow and a brother survive him here.

WOMAN SLAIN

Wife Shot and Killed by Burglars, Store Proprietor Avers

Glassboro, N. J., July 24.—Mrs. Clara Sabor, 25 years old, wife of Charles Sabor, proprietor of a grocery store here, was shot and killed, and her mother, Mrs. Mary Torsky, was wounded here shortly after two o'clock yesterday morning.

Charles Sabor, husband of the slain woman, was asleep in an adjoining room. He says that he grappled with the intruder and they exchanged shots, none of which took effect. The shooting and screams of the woman aroused the neighborhood.

Physicians were summoned nad pronounced Mrs. Sabor dead from a bullet wound through the right lung. Her mother in law had a bullet in her right arm, but the wound is not dangerous. The older woman told the officers that she was certain that there were two burglars in the room where she and her daughter slept.

Mrs. Sabor, according to this story, sprang at one of the men and grappled, with him. He flung her off and then shot her. The bullet entered her right breast, severing one of the large blood vessels. She fell back on the bed and died.

Mrs. Torsky then closed in with her daughter's murderer. She grapped with the man, and before he could shoot again grasped the hand in which he held the pistol.

Coroner J. P. Potter said this morning that he had been unable to find any sign, that a burglar had forced an entrance.

Sabor said that the only thing he missed was a gold watch and chain. He had a roll of bank notes amounting to more than $300 in the pockets of his trousers, which hung in his room where he said he had fought with the burglar, but none of the money was taken.

The Sabors had been married for nine years. Mrs. Sabor was a young and handsome woman. The two, according to neighbors, got along excellently. They had three children, two boys and a girl.

NEGRO BOY HELD

Race Feeling Runs High After Storekeeper's Killing; Prisoner Soon Caught.

Darby, Pa., July 24.—Race feeling is smouldering in Darby following the brutal murder of William E. Taylor, 67 years old, a leading citizen of the little town for years, by Samuel Dorman, a 17-year-old negro, who had been employed in Taylor's grain and feed store.

Taylor was found with his skull crushed at 8.30 o'clock Tuesday morning by another employe. Beverly Berkley. He had been struck over the head a few minutes earlier with a heavy singletree. Darby police hurried him to the University Hospital, where he died.

Less than a half hour after Taylor had been struck down Dorman was arrested by Chief of Police Clark, who had been notified by Berkley. He was turned over to Coroner Drewes, of Delaware county. who announced that the negro confessed to the murder.

According to the coroner, Gorman saw his employer obtain a large sum of money Tuesday to pay a draft on a carload of grain, which had just arrived. He removed a singletree from a wagon and placed it near the head of the stairs on the second floor of the feed store.

Taylor and Berkley completed unloading the car yesterday morning and Taylor went to the second floor to start hoisting the bags. As he stepped from the stairs, according to the confession, the negro struck him over the head.

Gorman at first denied that he had found any money. He admitted to Coroner Drewes that he searched his victim, but said at first that the man's pockets were empty. Later he admitted that he had obtained a sum of money which he did not count and, becoming frightened, had hidden it.

BOY SHOOTS SISTER

Dares Her to Stand Against Wall While he Points Revolver

Atlantic City, July 24—"Betcha you're afraid to stand over there by the wall," said 6-year-old Lewis Green, of Pleasantville, Tuesday as he brandished a revolver in front of his sister, Almeta, aged 9.

"Huh, I guess I ain't," replied the girl, and she backed against the wall The boy raised the revolver, pointed it at her and pulled the trigger. There was an explosion and the girl crumpled to the floor with a bullet through her stomach. She was hurried to the hospital in a motorcar, and surgeons performed an operation which they believe will save her life. The boy had found the revolver in a bureau drawer and didn't know it was loaded.

FOUR STILLS SEIZED

Prohibition Inspectors Operating in Wise County Capture Up-to-Date Outfits

According to the report the stills were in full operation, and one man was arrested, the rest escaping. One still, which was destroyed Monday, was of eighty-five-gallon capacity. Two hundred gallons of whisky were found at the various outfits, and 600 gallons of beer. As corn whisky has no medicinal value all of it was destroyed.

Members of his family, who for twenty years have opposed all efforts to have the order set aside, have recently withdrawn their objections and a favorable verdict is expected.

OLD HEBREW LAW INVOLVED

Childless Marriage Said to be Sufficient Divorce Grounds

Danville, Va., July 25.—Rabbi Isaac Minsky has instituted in the Corporation Court here a suit for divorce against his wife, Esther Minsky, who, the plaintiff declares, deserted him when they were living in New York. The bill of particulars has not been filed yet, Friends of the wife have retained counsel for her and the suit will be contested, the woman, it is understood, claiming that the rabbi deserted her.

The case promises to be a novel one, involving the old Hebrew law bearing on the childless marriage, which is said to afford grounds for the annulment of the matrimonial pact. Mr. Minsky holds no actual charge at present, but a year ago conducted services at the Aetz Chayim Synagogue. He has lived here for nearly three years.

WOOD ALCOHOL KILLS TWO

Main Ingredient of Tipple That is Fatal to Man and Woman

Atlantic City, July 24.—A drink with wood alcohol as the main ingredient caused the death of Mrs. Julia Hill and Richard Russell, two colored residents, found unconscious in a backtown rooming house early Monday morning. it was developed today by the authorities, who for 24 hours had been baffled by the case.

It was believed at first that the pair had taken an overdose of opium or had been given knockout drops by other persons, but today it was learned that Russell had purchased the alcohol in a north side drug store and physicians advised that the symptoms indicated that the poison had caused the death of the pair. Thirteen roomers of the house had been arrested pending the outcome of the investigation.

WORLD DRIVE DRY'S PLAN

Meeting in Washington is Considering International Campaign For Prohibition

The conference is formulating plans for a campaign to secure rigid enforcement of war time and constitutional legislation on prohibition here, and to educate the people of the United States on it.

The league will enter every Congressional, judicial and other political contest to prevent as far as possible the election of any official unfavorable to the enforcement of prohibition. To meet the attempts of the "wets" in legislative bodies and in the courts, closer relations will be maintained between the State leagues and the national organization.

BONDS TO BE REDEEMED

Securities Sold in 1865 Will be Made Good From Proceeds of New Issue

New York, July 22.—The "Irish Republic" bonds, which Eamonn De Valera, president of the republic, is shortly to offer for sale in the United States, will be the second issue offered the American public. And President De Valera, to show the good faith with which the Irish nation wishes to start in business as a republic, proposes to see that the repudiated bonds of the first issue are fully paid from the expected proceeds of the forthcoming sale.

In 1865 bonds of the "Irish Republic" to an amount undisclosed were sold in New York and throughout the country and at least $25,000 worth were sent to France to be offered there.

The first offering of Irish bonds was made under the auspices of the Fenian Brotherhood, which was the American branch of the Irish Revolutionary Brotherhood.

The purpose of the two brotherhoods was to secure the freedom of Ireland and establish an "Irish Republic." James Ctephens was the C. O. I. R., or chief organizer of the "Irish Republic," and John O'Mahony was the H. C., or head center, or representative, of Stephens in America in which capacity he was the organiser of the Fenian Brotherhood.

O'Mahony was elected president under the constitution and thus apparently became president of the Fenian Brotherhood, the "Irish Republic," either or both. The constitution legalized the bonds when signed by the agent for the "Irish Republic."

THEATRES

RICHMOND THEATRE

"The Bishop's Emeralds," the dramatic masterpiece which comes to the Richmond Theatre tonight is a literal dramatization of Captain Houghton Townley's famous novel of the same name, depicting an intensely dramatic story of English society life. It shows the struggle between the second wife of the Bishop of Rippley and her first husband, thought to be dead, but who reappears in her life as an international crook with the intention of stealing the Bishop's priceless emeralds; Bannister's nefarious attempt to carry out his purpose by threatening his wife with disgraceful exposure; his death at the hands of an accomplice; and the final reckoning and reconciliation between the Bishop and the woman he loves; these together form the groundwork of a highly interesting and dramatic plot.

INGOMAR THEATRE

The best and cleverest Baby Marie Osborne feature produced to date, "The Little Diplomat" at the Ingomar Theatre especially from the kiddies, who ardently love and worship "Little Marie Sunshine" as their supreme favorite.

There is plenty of comedy—there is plenty of drama—in this five part comedy drama. There is plenty of fun for the children—there is plenty of serious interest for the adults—in "The Little Diplomat."

"DRY" LAW CONSTITUTIONAL

Wartime Prohibition Act Valid Rules Judge Chatfield of Brooklyn

New York, July 24.—Constitutionality of the war-time prohibition act was upheld in an opinion handed down here yesterday by Federal Judge Thomas I. Chatfield of Brooklyn, in the case of Minery, a saloonkeeper, brought by the Liquor Dealers Association of Connecticut.

Judge Chatfield's decision was based upon testimony he heard recently in New Haven, where he sat in the place of Federal Judge Edwin S. Thomas of Connecticut.

Minery, backed by the Connecticut liquor men, in order to test the validity of the law, opened a saloon in Meriden. He was arraigned before Judge Chatfield in New Haven on the charge that on or about July 7 last he sold intoxicating liquor "unlawfully and knowingly before the conclusion of the present war and before the termination of demobilization, the date of which is to be determined by the President."

The saloon keeper was defended by Arnold A. Allin, State prosecutor of Connecticut, who demurred to the charge against Minery on the ground that the law was unconstitutional and that as peace had been restored it was not a war time measure.

Taft Writes of New Stand in Letter to Chairman Hays

Former President Taft squared with the stand of Chairman Will Hays of the Republican National Committee, on the proposed league of nations covenant yesterday when he announced that he favored reservations by the United States Senate.

Taft's new attitude reached the Senate in letters sent Senators by Hays.

Receipt of the letters caused somewhat of a political sensation. For several months Taft has stood very nearly behind the President. The change of viewpoint was all the more startling from the fact that Taft, in his letter, assumed the position taken by the Republican National Chairman a few days ago.

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

If you who are weak, nervous and run down from over-work, worry of any other cause would only realize that the summer months is the time to build up strength and vigor there would not be so many collapses and rushing for aid during the winter.

The plan to follow is simple: plenty of rest and good wholesome food along with a strength-creating body- building tonic, Chasco-Vin with its Iron, Manganese, Hypophosphites, Nux and other strength making ingredients, is the tonic we suggest.

If you follow this plan carefully you will notice a wonderful improvement in two weeks time. But don't give up too soon.
